

We have now been trading for over three years and once again we have been able to build on the success of our previous two years and maintain a turnover of around £5.5m by continuing to give our clients, design teams and consultants an excellent service.

We now have a dedicated and experienced team of over 40, all of whom have blended well to produce a reliable and multi-skilled workforce who can produce a quality product. Richard Mearman who joined the office team in September as a trainee estimator working under Gary & Roly.

We would again like to thank all of our employees and hope that we have continued to maintain an enjoyable and rewarding workplace. We hope to carry out reviews with all of our employees in the new year and would ask you to be truthful and honest as your responses and feedback will be used to ensure that we achieve an ideal working environment for all.

We have also continued to further develop our good working relationships with our suppliers and sub-contractors by ensuring that we assist them on site by being prepared and off site with prompt payments. Our philosophy and attitude has certainly reaped benefits and allowed us to strengthen our existing partnerships and build new ones throughout the whole supply chain.

In August 2007 we moved into our new purpose built premises at South Church Enterprise Park, Bishop Auckland. These premises give us the ideal base and facilities to service our sites and clients. We have recently fitted out the first floor and from January this will be let to two local and expanding companies.

Over the last year or so the industry has quietened down and since the summer you could say the pricing has become cut throat. We are continually chasing new avenues and clients to bring in new works. We are in negotiations with several projects for the New Year and hope through some hard work these will become jobs in the near future. We also have numerous other schemes where we are just awaiting for the go ahead.

Overall all we would thank you once again for all of your efforts and all we can ask is that you give us more of the same next year so that we can continue to give our clients a high level of service and reap the benefits of repeat orders, positive feedback and recommendations.

**Working with our customers
Not just for them!
Many Thanks**
